Mahdi Ababneh

Senior Flutter Developer — iOS and Android

Amman, Jordan | +962 78 034 5907 | mahdiababneh37@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Senior Flutter developer with five years of experience shipping production mobile applications for iOS and Android across Jordan, Saudi Arabia, the United Arab Emirates and the United States. Eleven applications live on the App Store and Google Play, spanning government services, field sales, real estate, automotive services, social networking and consumer products. Comfortable across the full delivery path: Flutter and Dart, native platform integration, backend services in Java Spring Boot and PHP Laravel, store release and long-term maintenance. Particular strength in accessibility, offline-first architecture and Arabic right-to-left interfaces.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer
July 2025 – Present

Ard Group
Amman, Jordan · On-site

- Develop Balady, a Saudi government municipal services application with more than one million downloads.
- Build permit, report and licence workflows on top of a three-dimensional interactive map.
- Maintain a single Flutter codebase delivering to both the Apple App Store and Google Play.
- Own the release pipeline end to end, including store submission, review responses and post-release monitoring.

Senior Flutter Developer
February 2025 – July 2025

Disty Company for Marketing
Saudi Arabia · Remote

- Built SalesPlus, a salesforce and order-fulfilment platform for businesses across the Middle East and North Africa region, published on both the App Store and Google Play.
- Implemented offline-first synchronisation so field sales representatives could capture orders without network coverage and reconcile them on reconnection.
- Integrated sales operations, order tracking and fulfilment into a single Flutter application consuming REST APIs.

Mobile Developer
March 2024 – February 2025

Xeleration
Amman, Jordan · On-site

- Built PSI Real Estate for Property Shop Investment, Abu Dhabi, a property search application for buyers, renters and investors across the United Arab Emirates.
- Integrated Mapbox for map-based property search, marker clustering and geolocation across large listing datasets.
- Delivered the application to both the App Store and Google Play from one Flutter codebase.

Full Stack Mobile Developer
April 2023 – March 2024

iSolutions (Invention Solutions Information Technology)
United Arab Emirates · Remote

- Built iSolution Events end to end: a Flutter client with a PHP Laravel backend, covering event agendas, speaker profiles, biographies and photo galleries for iSolutions and Google Cloud events.
- Designed and consumed the REST APIs on both sides of the stack, owning the contract between client and server.
- Ran daily stand-up meetings with a distributed team across multiple time zones.

Full Stack Mobile Developer
January 2022 – April 2023

Cyper Solutions (Fazeal)
United States · Remote

- Built Fazeal Social, a social networking application, as a Flutter client on a Java Spring Boot microservice backend with MySQL.
- Supervised staff training and onboarded new developers onto the codebase.
- Worked in an Agile process using Jira and Confluence, coordinating across time zones with a United States based team.

TECHNICAL SKILLS

Mobile	Flutter, Dart, Swift, Kotlin platform channels, WidgetKit, Android App Widgets, Material Design, responsive and right-to-left (RTL) layouts, accessibility (VoiceOver, TalkBack)
State & architecture	Business Logic Component (BLoC), Cubit, GetX, Model-View-ViewModel (MVVM), Model-View-Controller (MVC), clean architecture
Backend	Java, Spring Boot, Spring Model-View-Controller, Spring Core, Microservices, Hibernate, PHP, Laravel
Data & APIs	Representational State Transfer (REST), GraphQL, Structured Query Language (SQL), PL/SQL, MySQL, SQFlite, Firebase (Firestore, Authentication, Cloud Messaging, Analytics, Crashlytics)
Release & operate	App Store Connect, Google Play Console, in-app purchases (StoreKit, Google Play Billing), subscriptions, push and local notifications, crash and analytics monitoring
Tooling & process	Git, GitHub, GitLab, Bitbucket, Jira, Confluence, Agile, Scrum, JUnit, automated widget and unit testing

SELF-PUBLISHED APPLICATIONS

Designed, built, released and maintained independently, on my own developer accounts. The remaining seven were built for employers and clients, under Professional Experience and Other Client Applications.

Muslim Life Guide — 10,000+ downloads · App Store and Google Play
Arabic-first Islamic companion application: the complete Mushaf, prayer times with call-to-prayer notifications, qibla compass, remembrances with reminders, reading tracker, Qur'an radio with more than 100 reciters, a hadith library and a home-screen widget on both platforms. Works offline. Fully accessible with VoiceOver and TalkBack — more than 400 speech-normalised labels across 63 screens, protected by a 1,700-line automated accessibility test suite. Monetised with subscriptions through StoreKit and Google Play Billing.

Tamra: Fasting & Qada — App Store and Google Play
Free, ad-free fasting companion: logs voluntary and obligatory fasts, plans and tracks missed (qada) days, shows suhoor and iftar times with an optional suhoor alarm, and offers home-screen widgets on both platforms and automatic iCloud backup on iPhone. Available in six languages, including right-to-left Arabic and Urdu.

Studio HD — App Store and Google Play
High-definition wallpaper and video library with keyword and emoji search, in-app editing, favourites and offline downloads.

Note With Us — App Store and Google Play
Social notes application built on Firebase: Google sign-in, ringing reminders, sharing, image stories, in-app chat and theme customisation, in Arabic and English.

OTHER CLIENT APPLICATIONS

Garagat AI — MAQ Technology FZCO, United Arab Emirates · App Store and Google Play
Platform connecting car owners with garages and automotive service providers: vehicle management, service booking and online payments.

Durar — Summaries — Durar Digital LLC · 10,000+ downloads · App Store and Google Play
Concise summaries of influential books in Arabic and English, with a bilingual right-to-left and left-to-right interface.

EDUCATION

Bachelor of Science, Software Engineering
Jadara University, Jordan 2017 – 2021

- Graduated with a Very Good grade.
